Teenager

Intervention Plan

The intervention plan specifies all the services the student will receive during the school year. It includes a set of objectives and strategies identified for the teenager.

The teenager's support network at school

The learning specialist **assesses** and **works** with students who have **learning difficulties**.

The psychologist is consulted when a student experiences **emotional** or **behavioral difficulties**.

The psychoeducator is a specialist in supporting students with **adjustment** and **adaptation problems**.

The teacher plays a key role in **supporting** a teenager with ADHD.

The school administration plays a role similar to the teacher and **supervises** the intervention plan.
